

Calm Series Table ®

Understructure

- Leg material: 1-1/4" round, 16 gauge cold rolled steel tubing. Two vertical tubes are centered on a single steel tube cross piece with rubber feet at both ends.
- Chassis is a 1-3/4" x 1" 14 gauge steel channel box section that completely surrounds the underside of the table.
- Corners of the channel box section are constructed of .035" thick cold rolled steel.
- Three 1-1/4" pipe straps are attached over each leg on each side for extra support.
- Chassis is attached to the top with screws.
- An automatic gravity lock provides a positive locking mechanism.
- Plastic caps are inserted into the ends of legs.
- Chassis is black powder-coated. Silver available upon request.
- Folded thickness: 3"

Table Heights

- Standard height = 30" (except for 60" length tables where it is 29")
- 29" available at no extra charge. Must be specified at time order is placed.
