

Card Tables

Understructure

- Leg material: 1" square, 17 gauge steel tubing.
- Chassis is a self-supporting unit welded and riveted throughout and consists of two longitudinal 1-3/4" x 1" rerolled high carbon steel angles.
- Leg assembly secured to the angle iron rails with 1/4" steel rivets.
- Each of four legs is individually braced with a 14 gauge steel link, riveted at one end to the leg and at the other to the angle iron rail.
- Legs lock automatically in the open position with simple release tab for folding.
- Chassis is black powder coated. Silver available upon request.
- Folded thickness: 2-1/2"
- Glides: black plastic, pressed into end of leg.

Table Heights

- Standard height = 29"
- 30" available at no extra charge. Must be specified at time order is placed.
